

ALL INDIA INSTITUTE OF MEDICAL SCIENCES
Bilaspur, Himachal Pradesh

No. AIIMS-BLS/(G)/2024/NIQ/05

Dated: 29.08.2024

Notice for inviting Quotation for:

Supply of Internal Bar Coding System

QUOTATION NOTICE

Sealed quotations are invited from registered stockists/ distributors/ manufacturers having GST No. / for Supply of Internal Bar Coding System as per the detailed specifications (Annexure). Sealed Quotations in a single envelope duly super subscribed at the top of the envelope as "Quotation No.

No. AIIMS-BLS/(G)/2024/NIQ/05 for the supply of Internal Bar Coding System for Bio Medical Waste Bags and containers due date of opening..13/08/24."

containing both the "Technical Bid" and "Price Bid" (in two separate envelopes) may be submitted so as to reach on or before 13/8/24 up to 11:00 A.M in Procurement Section, 3rd Floor, Admin Block, AIIMS Bilaspur, Kothipura, Bilaspur, Himachal Pradesh PIN-174001. Bidders can quote for one or all the items. Late bids will not be considered. The bids shall be opened in the presence of duly constituted purchase committee and bidders who may wish to be present on the same day at 11:30 A.M.

For the purpose of technical evaluation, the bidder is required to submit the following documents.

Technical Bid:

1. Profile-Name & Full Address of the firm & year of establishment.
2. Copy of permanent GST registration certificate.
3. Copies of supply orders secured during 2022-23 for the similar products.
4. Previous two Income Tax Returns of the bidding entity.
5. Self-declaration that the firm is not debarred by MoHFW or Department of Commerce.
6. Full description, make and quantity of the item must be mentioned in the quotation.

In case the Technical Committee rejects a sample (if asked for) or the bid is "Not Qualified" on technical grounds, the financial bid in respect of that item will not be considered.

Financial Bid: The Rates and total cost must be quoted in both words and figures (overwriting not allowed). Selection will be made purely on the basis of lowest price quoted by technically qualified firms. Validity of the quotation should be for a minimum period of 90 days in case discrepancy between unit price & total price, the unit price shall prevail.

Financial Bid submission format for items with quantity required is as under:

Mishra

Shukla

Sr. No.	Item Detail	UOM	Quantity	Make	Model	HSN Code	Unit Price	GST Rate(%)	Unit Rate with GST	Total

Other terms and conditions will be as follows: -

1. Supply will be F.O.R. at AIIMS-Bilaspur
2. Supply will have to be arranged within 15 days from the issue of supply order. Delayed supplies beyond 15 days from the date of Supply Order will be subject to LD @0.5% per week or part thereof, on the contract price subject to maximum of 10% of contract price beyond which the supply order will be liable to be cancelled.
3. Supply must conform to samples wherever asked for.
4. The Institute reserves the right to reject the goods if the same are not found in accordance with the specifications approved/ asked for. In case there is a short/defective supply, the firm will be informed and the defective material will be lifted from the concerned department/ Store by the supplier at their own cost within a two weeks period. The Institute will not bear any expenses on this account.
5. Samples will be preserved till final settlement.
6. Bidder is required to quote a rate of 100% items.
7. Part supply will not be accepted.
8. No revision in rate (on higher side) will be accepted at any stage.
9. The firm shall not assign or sublet the work/job or any part of it to any other firm.
10. Billing will be in the name of Executive Director, AIIMS-Bilaspur. Payment will be made after the item has been received, inspected and accepted. No advance payment will be made at any stage.
11. Taxes at other government levies will be paid extra as applicable.
12. Venue for sample verification (if asked for) and quotation opening shall be in the conference hall of Stores Section, Basement 1, D Block.
13. In case the manufacturer participates, dealers will not be allowed or disqualified.
14. For any query, please contact Faculty In charge, E-mail storeofficer@aiimsbilaspur.edu.in

SPECIFICATIONS FOR PROCUREMENT OF BAR CODE SYSTEM FOR EFFECTIVE MANAGEMENT OF BIO-MEDICAL WASTE CELL, AIIMS-Bilaspur

USES: Bar Code System is used for tracking of Bio Medical Waste from source of its generation to its ultimate disposal. It is a regulatory Requirement as per Bio Medical Waste Management amendment Rules 2018, every occupier shall establish Bar Code System for Bio Medical Waste bags and containers before 27th March 2019.

Bar code system / labels should be compatible with bar-code management system software. The vendor shall consult the CBWTF and the software provider so as to ensure compatibility with software system being adopted by operator (CBWTF).

Bar Code system (For 1447 Beds) should include:

- | | | |
|--|---|----------|
| 1. App based mobile bar code scanner / mobile phones | - | 02 Nos. |
| 2. Software / Login Access | - | 01 Nos. |
| 3. Weighing machine (with wire or wireless connectivity) | - | 02 Nos. |
| 4. Portable Printer (with wire or wireless connectivity) | - | 02 Nos. |
| 5. Bar code Label | - | 04 Types |
- (Yellow – 10000 nos., Red – 10000 nos., Blue – 3000 nos., White – 3000 nos. Annually)

Specifications:

1. **App based mobile bar code scanner / mobile phone** should have the following provisions:
 - A. App based mobile bar code scanner should have the following hardware.
 - i. Should have internal memory and minimum memory should be able to retrieve minimum of 2 to 3 months data.
 - ii. Should have 5 + mega Pixel camera.
 - iii. Should have AGPS or GPS support.
 - iv. Should have activated fast internet connection for the entire contract period
 - v. Should have Bluetooth 2.0.
 - B. App based Bar code scanner / mobile phone should automatically transfer the information (which include label information, date, time and weight of each beg / container) to centrally located Bar code based waste Management system software. There should not be any scope for manual intervention of the occupier with respect to the data transfer.
 - C. App based bar code scanner / mobile phone automatically synchronizes with Android phone and the User can capture bar code and weight automatically (Mobile should have connectivity (wire or wireless) with digital weighing machine. Also there can be a provision for manual entry of weight data.
 - D. The bar code scanner should have the provision of data storage (in case of problem in server connectivity) for its retrieval as and when required. Once the scanner system is restored/ stored data should be transferred immediately to the scanner.
 - E. If barcode scanner / app has any breakdown due to problem in network or app or scanner software in transferring the data to the scanner in such a case there should be a provision for updating the information through alternate means with prior intimation by the operator of a CBWTF to SPCB/PCC/DGAFMS.

- Specification
Prepared
11th May 2023
- 11
- F. Upon scanning the barcode label, the software system should capture fixed barcode label date (sequence number of label, name of HCF, code of HCF, type of HCF, colour code of waste and location) along with dynamic data pertaining to weight, date, time and GPS coordinates of each bag / container scanned.
 - G. Upon receipt of waste by the CBWTF operator, the system should generate print out of waste receipt at the designated waste collection point or shall send auto-generated receipt by e-mail to the concerned Health Care Facility.
 - H. App base mobile bar code scanner has the provision of printing the data and can have wired or wireless coactivity to printer.

2. Software / Login Access

- A. Software should be compatible with Guidelines for Bar Code System for effective management of Bio Medical Waste
- B. Software should support multiple user logins for occupier / admin login and regulatory login for respective SPCB/PCC/DGAFMS, CPCB, MOEF & CC, Central/ State Health Departments. Such logins should be provided to the regulatory authorities voluntarily without any charges.
- C. Software should be integrated with central software.
- D. Any up gradation related to software would be the sole responsibility of vendor and same should be provided free of cost.

3. **Weighing machine (with [redacted] wireless connectivity):** Weighing machine should be able to weigh about 25 Kg or more with 0.05 kg accuracy and have provision for connectivity with bar code scanner. In this machine waste bag is kept on weighing scale and the weight of Bio Medical Waste is automatically transferred from weighing scale to device.

4. **Portable Printer (with [redacted] wireless connectivity):** Printer should have wired wireless connectivity and should be able to connect with Mobile Barcode Scanner mobile and should have provision of printing receipt.

5. **Bar code Label:** Required for use / paste on the colour coded bag or containers for handling Bio Medical Waste and should have following specifications.

- A. Colour mark on the label: A colour mark or text is required on bar code label for easy identification of the bar code (by the workers handling Bio-Medical waste) with designated colour coded bag or container. The bar code should have a colour mark (in yellow/Red/White/Blue) in the form of block of size at least 7 mm X7 mm or Text of font size 12 specifying the colour of the BMW in the bags of containers. The colour mark or Text shall be placed at the top left corner of the Bar code label.
- B. Unique number of the HCF as per guidelines issued by CPCB.
- C. Label sequence number as per the guidelines issued by CPCB.
- D. Size of Bar code label should be such that it should be able to accommodate desired information specified.
- E. The bar code should be black in colour and its background should be white colour and it should be clearly legible on the label.
- F. The bar code label should be tamperproof, waterproof and its colour should not fade in due course of at least for 92 hours after its use.
